

## COVID-19 Preparedness

Bodhi Montessori is dedicated to the safety of their children, families, and staff. We are updating our environment to follow the safety measures and protocols outlined by the Alameda county, Center for Disease Control and Prevention (CDC), and Child Care Licensing Department (CCLD).

1. Daily temperature and symptom check at the door.
2. Sanitizer provided at the door before the children enter.
3. Parents drop and pick up children at the door to minimize exposure.
4. Safe distancing between children while working.
5. 6-foot distance between tables for snack and lunch.
6. Pick up and Drop off for one family at a time with 6-foot distancing.
7. Children are encouraged to wash hands many times during the day.
8. Napping cots sanitized after each use.
9. Teacher and kids always wear face masks except during eating and nap.
10. Teachers model social distancing for children to follow.
